

Special Kids Network

Making Connections for Pennsylvania's Children with Special Health Care Needs

Special Kids Network (SKN)

The SKN, in partnership with the PA ELKS Home Service Program, helps children and youth with special health care needs by helping their families get the services and support these young people require in order to thrive in the community and develop to their full potential. If your child has a physical, developmental, behavioral or emotional need, call or visit our website. There is no charge for any SKN service.

The SKN offers:

- Information on health care resources, advocacy, assistive technologies and more.
- Family support in overcoming challenges to ensure children and youth have access to services, education and employment.
- Information about accessible and inclusive recreation and leisure activities for children and adults.
- Information to help you and your community identify service gaps and address the unique challenges of your local service system.
